AI News Summarizer

Prompt:

**** Select Top Articles ****

From `{{ $json.articles }}`, choose the 15 most relevant articles related to AI technology advancements, tools, research, and applications.

**** Summarize Clearly ****

Write in clear, professional, and readable language, summarizing the main point of each article in 1-2 short sentences.

**** Include Links ****

After each summary, add the article's URL for readers to explore more.

**** Add the Date ****

Begin the summary with today's date:

`{{ $now.format('yyyy/MM/dd') }}`

System Message:

**** Output Format ****

Only return the summary in plain text – no explanations or additional formatting.

Keep the response up to 2000 characters
